

Whale	Name	Justification
1208	Aurelia	Bonnet callosity looks like a jellyfish, Common name for jellyfish
1208	Grenade	the bonnet looks like a grenade, and the dip is rostrum can look like the fallout from a grenade
1208	Jellyfish	Bonnet callosity looks like a jellyfish, Common name for jellyfish
1208	Jellyfish	Her callosity at the tip of her bonnet looks like a jellyfish.
1208	Pumpkin	the shape of the bonnet looks like a pumpkin
1208	Soapbox	Islands/peninsulas look like wheels on soapbox car
1515	Comic	the bonnet and diagonal islands coming off look like a comic/word bubble
1515	Inlet	Right side of bonnet and tooth decay
1515	Kona	Kona means 'leeward'; named for faint post blowhole callosities with scars behind them
1515	Peppa	Like Peppa pig - the tooth decay looks like a pig nose
1515	Piglet	Bonnet with tooth decay looks like pig nose
1515	Snout	Bonnet with tooth decay looks like pig nose
1515	Suzuki	After David Suzuki
1515	YipYip	the shape of the bonnet looks like those aliens from Sesame Street with the big mouths, they are called Yip Yips
2541	Dice	Islands like side of die with 2 spots
2541	Dracula	the coaming looks like teeth and the islands look like blood dripping off
2541	Droplet	Combing and bonnet looks like a Eye dropper adding each a drop
2541	Fangs	the coaming looks like teeth and the islands look like blood dripping off
2541	Icicle	the coaming looks like icicles and the islands look like drips coming off
2541	Lava	The callosities resemble the movement of the oil in a lava lamp.
2541	Prarie	For the wide area between the islands
2541	Vampire	the coaming looks like teeth and the islands look like blood dripping off
2904	Altair	A star in the "summer triangle" constellation, which resembles the three dots on the left head
2904	Bermuda	Bermuda Triangle, 3 dot scars on the left of the face
2904	Lyra	Lyra is a constellation in the "summer triangle", which resembles the three dots on the left head
2904	Mathematician	for the three dots on the left side and the line scar on the right side of coaming, both symbols used in mathematics.
2904	Mouches	white dots on head look like beauty marks worn in 1700s
2904	Proof	for the three dots on the left side, Therefore symbol, mathematical proof
2904	Vega	Summer Triangle constellation- top star is Vega, 3 dot scars on the left of the face
3060	Diverge	Bonnet and coaming and veering away from each other
3060	Dolus	In greek mythology- spirit of trickery for the changing callosity pattern
3060	Spotlight	for the scar on the front of the head
3060	Tectonic	callosities look like tectonic plates shifting
3060	Veer	the coaming and bonnet veer (swerve) in opposite directions
3060	Yaw	side-to-side movement of a plane or boat, for the way the callosity veers in different directions
3157	Amelia Island AI	outline of the island similar to callosity
3157	Apollonia	Roman woman who became the saint of toothaches
3157	Bookend	for the mandible scarring
3157	Clamp	for the mandible scarring

Whale	Name	Justification
3157	Gibson	Roman Nose, tooth decay and collosities form shape of guitar from above.
3157	Lunar	Her smooth & roman head is like the moon, and her mom's name is Moon.
3157	Pinstripes	Lines on lips/mandible
3157	Pumbaa	Pumbaa from Lion King, two lower lip scars look like tusks of a boar
3157	Selene	Greek goddess of the moon. 3157's mom is named Moon
3157	Snakebite	the two lower lip scars look like a 'snakebite' lip piercing
3157	Vice	for the mandible scarring
3220	Albireo	For the two binary stars that appear to orbit the same common center of mass, in reference to her two bright fluke tips.
3220	Bellatrix	A bright star seen in the winter. For the bright headlight, and she is only seen in the winter calving grounds.
3220	Emo	In reference to the scar on her left lip that looks like a lip-ring.
3220	Pizzeria	for the shape of the white scars on the fluke tips
3220	Pollux	A bright star seen in the winter. For the bright headlight, and she is only seen in the winter calving grounds.
3220	Punkie	The scar on her left lip that looks like a lip-ring.
3220	Slice	for the shape of the white scars on the fluke tips
3220	Tail Light	Bright white fluke tips look like tail lights
3220	Taillights	In reference to her distinct fluke tips and her unique headlights.
3220	Wedge	for the shape of the white scars on the fluke tips
3292	Doublet	for the pair of symmetrical islands
3292	Duo	for the pair of symmetrical islands
3292	Duo	Two islands side by side
3292	Hoodwink	Named for scar near front of bonnet.
3292	Pawprint	for the scar in front of the bonnet
3292	Xerox	for the pair of symmetrical islands, looks like a carbon-copy
3390	Boo	The combing and the islands looks like a ghost face saying boo
3390	Breton	Combing is split like Cape Breton and mainland Nova Scotia (separated but considered 1 area
3390	Frost	for the scarring on the ped/flukes
3390	Squelette	Squelette is skeleton in French (3390 spends time in GoSL), the scarring on peduncle looks like vertebra in a spine.
3390	Uca	Right island larger than left, like fiddler crab claws (genus Uca)
3414	Arabica	The topography of the bonnet looks like coffee beans
3414	Barbell	Bonnet looks like a barbell
3414	Derby	Bonnet looks like the outline of a racecar
3414	Fjord	for the notch in the left fluke
3414	Hammerhead	In reference to his distinctive bonnet that looks like the head of a hammerhead shark.
3414	Isthmus	Bonnet looks like land connecting two larger areas of land (isthmus)
3414	Strongman	for the shape of the bonnet that looks like a dumbbell a strongman would use
3414	Vee	for the notch in the left fluke
3414	V-notch	for the notch in the left fluke (nod to conservation in lobster fishing)
3430	Balloon	Bonnet shaped like hot air balloon
3430	Canteen	for the shape of the bonnet
3430	Chianti	The shape of the bonnet looks like a Fiasco bottle often used for Chianti

Whale	Name	Justification
3430	Cricket	The bonnet is shaped like a Cricket paddle
3430	Fiasco	The shape of the bonnet looks like a Fiasco bottle often used for Chianti
3430	Flask	for the shape of the bonnet
3430	Stubby	for the shape of the bonnet, looks like a stubby beer bottle
3651	Ascot	for the white wrapping on the mandible
3651	Atoll	Looks similar to mom (Mayvynne) and sibling (Dune) whose names relate to beach.
3651	Klaus	German for Santa, White Chin (beard) and Chunky (callosity)
3651	Kringle	Kris Kringle for Santa, White Chin (beard) and Chunky (callosity)
3651	Neckerchief	for the white wrapping on the mandible
3651	Sandy	Large continuous callosity and lips are like a sandy beach. Mom is Mayvynne, sibling is Dune - both look similar and names are beach related.
3651	Whitecap	Large lips look like whitecaps
3720	Asteria	The Greek goddess of the stars, for all of the white dots that look like stars
3720	Squilla	Peninsulas off coaming look like mantis shrimp eyes, mother was Mantis
3720	Stellar	for all of the white dots that look like stars and the long coaming looks like a telescope
3720	SweetTooth	For tooth decay
3720	Urania	the Greek muse of astronomy, for all of the white dots that look like stars
3840	Brussels Sprouts	Numerous peninsulas looks like Brussels sprouts on stalk
3840	Drizzle	for the dribble-y callosity
3840	Fiddler	for the uneven lip callosities, like the asymmetrical claws of the fiddler crab
3840	Lopsided	for the uneven lip callosities
3840	Pong	The way that the lip callosities and islands along the peninsula resemble the set up for the arcade game PONG.
3840	Smirk	An asymmetrical smile, in reference to his asymmetrical lip callosities.
3942	Beacon	Scars in coaming and ped are like bright beacons, chin also white
3942	Candle	The coaming scar and connected callosity look like a low-burning candle with a flame!
3942	Chaplin	Charlie Chaplin, scar across the Combing looks like a short mustache
3942	Cummerbund	for the white scar on coaming the resembles a cummerbund wrapped around a waist
3942	Earthquake	for the scars on the peduncle that look like a seismograph reading
3942	Freddy	Freddy Mercury, scar across the Combing looks like a short mustache
3942	Moustache	Freddy Mercury, scar across the Combing looks like a short mustache
3942	Ribbon	for the white scar on the coaming that looks like a ribbon wrapped around something
3942	Sailboat	The coaming scar and connected callosity together look like a boat and with a sail.
3942	Sunrise	The white wrapping around the mandibles looks like light coming up above the horizon.
3942	Warrior	Scar across coaming is like warpaint, and large ped scars show she's been through battle.
4180	Eleven	for the scar on the right lip that looks like the number 11
4180	Onze	for the scar on the right lip that is the number 11, Onze is 11 in French and 4180 spends time in the GoSL
4180	Bolt	Her faint back scars look like a lightning bolt.

Whale	Name	Justification
4180	Dyad	In reference to her two R lip scars, also a nod to the humpback named dyad with similar markings on her fluke.
4180	Egale	2 line scar on right lip looks like equal sign (french word for Equal)
4180	Firebolt	Large ped scar looks like Firebolt broomstick
4180	Parallel	2 line scar on right lip looks like parallel lines
4180	Potter	Her faint back scars look like Harry Potter's lighting bolt scar.
4180	Quote	In reference to her two R lip scars that look like quotation marks.
4180	Sailor	Captain/crew of the research vessel who were successful with her recent biopsy sampling want to name her in honor of their previous captain who's phone number shared the same digits. Given her scars, she's a seasoned sailor.
4180	Triad	for the 3 scars on the peduncle
4180	Triptych	for the 3 scars on the peduncle
4180	Troika	a team of 3 horses, for the 3 scars on the peduncle
4180	Zed	In honor of her Z-shaped back scar.
4180	Zee	In honor of her Z-shaped back scar
4180	Zoro	In honor of her Z-shaped back scar.
4523	Aitch	for the 4 post-blowhole callosities, in morse code 4 dots (....) is H and "aitch" is the spelling
4523	Baymax	Combination of bonnet and islands resembles the disney character
4523	Candle	The coaming scar and connected callosity look like a low-burning candle with a flame!
4523	Diadem	4 post-blowholes look like jewels on type of crown/ornamental headband worn by monarch
4523	Hotel	for the 4 post-blowhole callosities, in morse code 4 dots (....) is H and Hotel is H in the phonetic alphabet
4523	Quad	for the 4 post-blowhole callosities
4523	Quartet	A set of four people or things, in reference to the four PB callosities.
4523	Reflection	Islands and pbh are symmetrical
4523	Syzygy	Syzygy is an astronomical term for three or more celestial bodies lined up in a straight line, referencing the four PB callosities.
4615	Endurance	Named after Ernest Shackleton's boat that was just found, in hopes that 4615 is located again soon. Also, the last two callosity marks resemble the silhouette of a tall ship sailing away.
4615	Fangs	Callosity scars look like fangs
4615	Floss	Due to several entanglements this whale has gotten a lot of scars. With one of the entanglements, he had rope still stuck in his mouth which was kinda like flossing his baleen. The white line scars also resemble floss. This name represents the celebration of him wiggling his way out and is now gear free, but is also a reminder to the public the dangers of ropes and gear to these precious animals. It's a cute but simple name much like the names of the other identified whales.
4615	Gnocchi	for the shape of the bonnet that resembles a piece of gnocchi
4615	Hercules	The callosities on the rostrum and splashguard look like Hercules' club. Like Hercules, 4615's life has been challenging so far with the change of mother's and his entanglement. But, if we are successful in saving the right whales, he will also be granted a long and wonderful life.

Whale	Name	Justification
4615	Michelangelo	The broken peninsula reembelems the outstretched arms in the painting in the Sistine Chapel by Michelangelo.
4615	Picket	for the white scars on the leading edge of the right fluke that looks like a picket fence
4640	Elle	for the L shaped scar on the right head
4640	Jin	The scar on the right side of her head looks exactly like the kanji character, jin! This symbol means "person" in Japanese.
4640	Lambda	Scar on right head looks like Greek letter Lambda
4640	Lima	for the L shaped scar on the right head and Lima is L in the Phonetic alphabet
4640	Nu	Scar on right head looks like Greek letter; lower case Nu
4640	Peak	Triangular scar on right head, and sometimes pointy coaming resembles a mountain
4640	Summit	Scar on right head could resemble a mountain, also the coaming sometimes comes to a peak.
4640	Vee	Scar on right head looks like Greek letter Lambda
4640	Wishbone	Scars on right head look like a wishbone
4711	Arch	for fused islands on the bonnet that look like an arch, and an arch can be used to connect objects
4711	Caret	for the fused islands on the bonnet that resemble a caret, ^
4711	Chevron	for the fused islands on the bonnet that resemble a chevron, ^
4711	Samara	For distinctive fused islands, Samaras are pollen seeds also referred to as Helicopters (or Whirligig)
4711	Triquetra	Three overlapping islands like trinity symbol
4711	Whirligig	For distinctive fused islands, Samaras are pollen seeds also referred to as Helicopters (or Whirligig)
