

Half-Day Workshop: Sensory Systems as They Relate to the North Atlantic Right Whale

Participant Questionnaire (Please complete & return by October 15, 2023, to jfasick@ut.edu)

The number of workshop participants will dictate the format of the presentations and length of the Discussion/Breakout session. For those participants interested in presenting, the presentation format will either be 10-15 minutes, or short 2-5 minute Lightning Talks depending on registration numbers. The first half of the workshop will include presentations with a brief Q&A following each presentation. The second half of the workshop will be either a full-participant discussion session or individual breakout sessions, again depending on the number of participants.
