

Whale	Name	Justification
1042	Groove	Notch/groove on dorsal
	Groovy	Notch/groove on dorsal
	Peacock	The islands and bonnet look like the head, body, and large tail of a peacock
	Mallard	Overall shape of bonnet when looking from above towards tail. Duck looking left with beak tilted up.
	Rabbit	Overall shape of bonnet when looking from from above towards tail. Rabbit looking to the right.
	Clippy	The callosity resembles the discontinued, but unforgettable, Microsoft Office Assistant Clippy the interactive paperclip.
	Shelley	Callosity resembles a conch shell
	Telescope	For the callosity shape that looks like a telescope or spotting scope
	Backpack	Bonnet looks like backpacker, with the double pen as the backpack and the island as the head.
	Drape	The back scar and ped scar look like a line draped over that side
	Yin	Both the distinctive line marks are on the left, yin (the black section of the yin yang symbol) is on the left side and represents female energy
	Lamprey	The two long, white scars on the left side and peduncle look like lamprey eels attached at the midline and hanging down. We see this in right whales.
	Query	Callosity looks like a question mark
1711	Montana	After Tony Montana from Scarface.
	Nienor	Extensive scarring, name Nienor relates to 'mourning'.
	Heaven	Heaven in Our Headlights- Hedley headlight callosities
	Meteor	Line scars on head, flank, ped look like meteors
	Plumb Line	A vertical line - like the ones on her left head, left flank, and left peduncle
	Specter	Ghost-line shape of bonnet with 2 dark eyes
	Maple	A family name since her 2017 calf (#4711) is Whirligig, which are the winged seeds of maple trees. Plus she has been sighted in Roseway and BOF (the maple tree is the national tree of Canada).
	Parka	Bonnet looks like a person bundled up in a full length puffy coat. Tooth decay is like the boots.
	Chalkline	For the various white lines/scarring
	Snowman	For the bonnet shape that looks like a snowman
	Latitude	The line scars on her back and peduncle are what distinguish her from other broken, two island whales. Like lines of latitude on her body.
	Artemis	Her two islands are mirrors of each other, just like the famous twins Artemis and Apollo. Also the thick line scars on her back and ped look like contrails from the Artemis rocket launches.
	Candle	Proximal end of bonnet looks like the flame at the top of a candle

	Flicker	Proximal end of bonnet looks like the flame at the top of a candle
	Scratch	Scars on flank and peduncle
	Drape	The back scar and ped scar look like a line draped over that side
	Yin	Both the distinctive line marks are on the left, yin (the black section of the yin yang symbol) is on the left side and represents female energy
	Lamprey	The two long, white scars on the left side and peduncle look like lamprey eels attached at the midline and hanging down. We see this in right whales.
2910	Paddle	Seen from above, the callosities on his head look like a paddle.
	Pongo	Considerable scarring on fluke. Dalmatian like.
	Silver Lining	Scarring by the right bonnet looks like sun peeking out through clouds
	Guinness	Scar underneath right bonnet = foam on the head of a dark beer
	Cappuccino	Scar underneath right bonnet = cappuccino foam
	Hummingbird	Small scar on right lip
	Scarface	Scarface for the scar on his face (right side of bonnet). Yes, unfortunately many right whales could be named scarface; however, this has been the unofficial name for #2910 that has been used across multiple field teams for years.
	Surf	White scarring in bonnet is like breaking waves.
	Breakers	White scarring in bonnet is like breaking waves at the beach
	Nuru	Swahili for "light"; callosity resembles a torch being held aloft
	Surf	For the scarring on the right side of the bonnet that looks like surf breaking on a beach
	Breakers	For the scarring on the right side of the bonnet that looks like breaking waves on the beach
	Swash	Swash is the foamy, white water that washes up the beach after a wave breaks. The white scarring on the right side of the bonnet looks like a wave washing up on the beach.
	Frost	The scarring below the right bonnet looks like a layer of frost along the callosity. Also Robert Frost's famous poem "The Road Not Taken" is about choosing between two paths, similar to #2910's lips: one chose to have callosity, the other did not.
	Paddy	Seen from above, the callosities on his head look like a paddle
	Oar	Seen from above, the callosities on his head look like an oar
	Frost	This whale needs to be named for the white edging of the right callosity.
	Glaze	This whale needs to be named for the white edging of the right callosity.
	White Rim	This whale needs to be named for the white edging of the right callosity.
	Edging	This whale needs to be named for the white edging of the right callosity.
3130	Penny Bun	Callosity at end of rostrum similar to a king bolete (aka Penny Bun) mushroom

	Bolete	Callosity at end of rostrum similar to a king bolete (aka Penny Bun) mushroom
	Artemis	Goddess of wild animals, nature, care of children, childbirth
	Scalene	Three islands form a scalene triangle
	Libra	The three islands when viewed from above make an L shape, and the three post-blowhole callosities resemble the scale symbol for the astrological sign. Plus, this whale's father is "Gemini," so there would be a nice familia continuity.
	Leo	White scar underneath bonnet = roaring lion silhouette + is an EI look alike (2 islands on left + 1 on right in the shape of an L)
	Lion	White scar underneath bonnet = roaring lion silhouette + is an EI look alike (2 islands on left + 1 on right in the shape of an L)
	Marilyn	Named for Marilyn Monroe and her iconic beauty mark, which was on the same side as #3130's rostrum scar.
	Lima	NATO alpha code for the letter L, for the shape of the 3 islands.
	Grey Lady	Nickname for Nantucket Island, in honor of all the island callosities
	Squidward	Callosity resembles the SpongeBob character
	Diamond	For the white scar in front of the bonnet that looks like a diamond
	Triplet	For the three post blowhole callosities
	Ursa	Her long coaming and islands resemble the big dipper (part of Ursa Major), which can be used to find the North Star (the scar at the front of her rostrum)
	Marilyn	Marilyn Monroe had a beauty mark above her left lip, similar to that white scar fwd of the bonnet on the left side. She also had 3 husbands and #3130 has 3 postblows.
	Trois	French for '3' for her 3 islands and 3 post blowhole callosities
	Carrot	The scar in front of bonnet is like a carrot hanging in front of a horse
	Anglerfish	Scar in front of bonnet is like the anglerfish lure
	Cachalot	Cachalot is another name for sperm whale, because the scar forward of the left bonnet is where a sperm whale blowhole is- far forward on the left
3191	Curve Ball	Callosity seems to have a slight curve to it
	Arch	Curve in callosity and lip callosities
	Exclaim	Right lip callosity looks like an exclamation mark
	Semi-colon	Right lip callosity looks like a semi-colon
	Eyebrow	Both lip callosities
	Dietrich	Marlene Dietrich was famous for her eyebrows (see lip callosities)
	Waldo	The double peninsula's topography resembles the Where's Waldo character's signature eyeglasses.
	Crook	There's a jog/curve in the callosity.
	Kink	For the slight curve in part of the callosity
	Mop	Callosity looks like a person holding a mop
	Ukelele	Callosity resembles ukulele
	Lute	Callosity resembles a lute

	Guitar	Callosity resembles a guitar
	Dentist	The callosity looks like a large toothbrush, and tooth decay (I know nothing to do with teeth but follows the theme)
	Bendy	Has an obvious bend in his callosity.
	Dimple	For the tooth decay in the bonnet
	Indent	For the tooth decay in the bonnet
	Guitar	The continuous callosity resembles a guitar, with the bonnet on the bottom
	Hendrix	The continuous callosity resembles a guitar and Jimmy Hendrix was a famous guitarist
3333	Oppenheimer	The scar combined with the callosity looks like a mushroom cloud over the ground.
	Pebbles	Callosity looks like a adorably small pile of rocks.
	Fraya	end of fluke scars look like fraying
	Fangs	Scars off callosity, lips, and trailing fluke look like fangs
	Nessie	Scar on left dorsal fluke trailing edge = loch ness monster
	Sauropod	Scar on left dorsal fluke trailing edge = any of the long neck dinosaurs (brontosaurus, diplodocus, etc)
	Lighthouse	Scar on left dorsal fluke trailing edge
	Qantas	The scarring on his fluke looks like a jumbo jet to me, reminding me of my favorite airline.
	Ziggy	Callosity zigzags
	Viper	Callosity resembles a coiled snake
	Fangs	For the scar on the trailing edge of the flukes
	Dracula	For the fang scars on the trailing edge of the flukes
	Dracula	The scar on his right lip looks like fangs
	Shaka	The scar on the top of his fluke looks like someone doing the shaka sign or "hang loose"
	Icicle	Trailing edge scar looks like a hanging icicle.
	Skellington	Short for Jack Skellington from the movie the Nightmare Before Christmas: both of their lips look sewn together by scars.
	Wingman	Scars on flukes and peduncle resemble an airplane
	Vase	Shape of bonnet resembles a Chinese vase
	Dumbbell	As seen from the left or the right aerially, the bonnet resembles a dumbbell for weight training
	Cricket	The white circular scar on the blowholes looks like a white cricket ball
	Sisyphus	The white circular scar on the blowholes looks like a white ball rolling down a hill. Sisyphus was condemned to repeatedly roll a heavy rock up a hill in Hades only to have it roll down again as it nears the top
3693	Chicane	The callosity waves from side to side like a chicane.
	Muppet	Two peninsulas on right side of callosities look like googly eyes over frowning mouth
	Trinity	3 parallel lines on her tail, the state of being 3
	Tribar	3 parallel lines on her tail
	Triad	3 parallel lines on her tail - a union or group of 3
	Celestial	Island and white dots on head look like objects in space

	Paintball	White speckles all over head and body like been in a paintball battle
	Constellation	White dots all over head & body = variety of constellations
	Confetti	White dots all over head & body
	Pinball	The overall callosity pattern looks like an active pinball game, with the island being the ball and the peninsulas being the obstacles.
	Merrimack	Named for the long winding Merrimack River in New England. This whale is mostly only seen in New England waters.
	Aquinnah	Named for the lighthouse on Martha's Vineyard - an island near a peninsula. And a reference to this whale mostly only seen in New England waters.
	Jimi	The callosity looks like a guitar and immediately made me think of Jimi Hendrix.
	Salix	For the callosities that looks like a branch of a pussy willow tree, Salix is the genus
	Bud	For the callosity that looks like a tree in the spring with the buds coming out
	Pearl	Single, high island is almost round. Also, lots of mandibular islands (particularly on the right) is like a string of pearls
	Smorgasbord	A variety of peninsulas and islands make up her callosity.
	Panoply	An array of callosity options (peninsulas, islands).
	Alien	The bonnet looks like the bulbous head of an alien with the rest of the callosity to the coaming looking like a scrawny alien body
	Starlink	Several linear white dots on the right side of rostrum, right lip, and behind and to the right of the blowholes resembles the Starlink satellites
	Asterism	The name of a group of stars; for the white dots on the right side of her head
	Glitter	For the white dots on the right side of her head
	Constellation	For the white dots on the right side of her head
	Sparkles	For the white dots on the right side of her head
	Milky Way	For the white dots on the right side of her head
	Ridge	The ridge in the coaming is a stable feature and what I use to match this whale
	Crest	The ridge in the coaming is a stable feature and what I use to match this whale
	Pinball	Pinball for the back and forth between the many peninsulas
	Zigzag	The callosity zigzags back and forth between peninsulas
3917	Junco	The tail carries the same white leading edges as the Junco bird.
	Lúthien	Relates to flowers (callosities on bonnet and chin appear like a bouquet)
	Endurance	This whale has endured entanglements as evidenced by extensive scarring
	Topple	4 white scars on right lip = row of dominoes falling
	Grimace	2 dots on left head + left lip scar = grimace of determination (she's also clearly been through a lot)
	Amazon	Female warrior - this whale has been through a lot. All the scars can represent the river & its tributaries

	Valkyrie	Valkyrie is a warrior woman in Norse mythology, and #3917 looks like she has survived many battles.
	Cockatoo	The scarring on her fluke looks like a cockatoo opening its wings
	Picket	For the white scarring on the lips that looks like a white picket fence
	Abstract	All of the scars on her head, lips, peduncle and fluke look like abstract art. A nod to her mother, #3317 "Frida"
	Guitara	Continuous callosity looks like a guitar
	Vitruvian	For the Vitruvian Man, a human figure with arms and legs outstretched, positioned within a square and circle representing the center of 'cosmic geometry'
3946	Asparagus	Seen from above, the callosities on her head look like an asparagus.
	Wanda	Seen from above, the callosities on her head look like a magic wand. An "a" was added at the end for a better sounding name.
	Felagund	Name relates 'maker of caves' referring to the scars below blowhole
	Icicle	Long continuous ped scar and continuous callosity
	Equus	Headlight looks like profile of a horse head. Equus is genus for horses, zebras, etc.
	Crawford	White scar by blowhole = beautymark ~ to Cindy Crawford
	Tictac	White scar by blowhole = breath mint
	Calamari	A family name since mother is Loligo (genus of squid).
	Rhubarb	The continuous peduncle scarring looks like a stalk of rhubarb.
	Smooch	Scars on chin look like pursed lips ready for a kiss. Also the scars on the blowhole look like a kiss.
	Besa	Scars on chin look like pursed lips ready for a kiss. Also the scars on the blowhole look like a kiss.
	Dora Milaje	Callosity resembles a spear, which are wielded by the warrior women of Black Panther
	Lefty	For the scar on the left blowhole
	South Paw	For the scar on the left blowhole
	Ilex	Continuous callosity with symmetrical peninsulas is squid shaped, just like her mom, #1246 "Loligo"
	Batty	The tip of her bonnet is white (from scars), which reminded me of white-nose syndrome found in bats.
	Madagascar	The small white scar near the large bonnet resembles the island of Madagascar off the coast of Africa; and the word 'scar' is in the name
	Accent	The scar by the left blow hole looks like a accent mark over a letter
	Tilde	The scar by the left blow hole looks like a tilde mark over a letter
4042	Beren	Relates to 'bold'. Optimistic for young entangled whale.
	Castaway	This whale has many islands and is currently trying to survive an entanglement, like a castaway on a deserted island
	Bullseye	Island w/ scar = arrow in center of target
	Martini	#4042 has a new-ish (2022) scar on his head over his front left island, which resembles a skewered olive on a classic martini.

	Checkers	All the staggered islands look like a game of checkers
	Bubbly	For the callosity pattern that looks like a bottle of champagne with bubble coming out
	Cerberus	The three-headed dog from Greek mythology, for the three islands
	Confetti	Bonnet resembles a party popper with confetti coming out towards the coaming
	Milky Way	Scattered white dots on head resemble stars in the galaxy
	Groucho	The two aft pbh callosities look like bushy eyebrows close together like Groucho Marx
	Levy	The two aft pbh callosities look like bushy eyebrows close together like actor Eugene Levy
4129	Goldy	Seen from above, the callosities on his head look like a goldfish.
	Huan	Highly Unusual Asymmetric Notches relating to floppy flipper and biased callosities
	Nemo	Right fluke droops like Nemo's small right fin
	Estribor	"Starboard" in Spanish, the island and lip and droopy fluke are all on the right side
	Righty	He has a droopy right fluke, an island on the right side, and a lip callosity on the right side.
	Finn	The main callosity looks like a Goldfish cracker, whose mascot is aptly named Finn.
	Goldfish	For the bonnet that looks like a goldfish/goldfish cracker
	Bass	The island and curve of the bonnet, plus the two line scars on the lip resemble the bass clef. A nod to his mother #2029 "Viola"
	Lambda	Left lip scar looks like the greek alphabet letter lambda.
	Droopy	For his droopy right fluke.
	Venus	The single island resembles the head of the Venus de Milo statue and the bonnet resembles her armless body
	Goldfish	Aerially from the right side, the bonnet resembles a goldfish cracker
	Pez	Aerially from the right side, the bonnet resembles a fish; Pez is Spanish for 'fish'
	Grouper	Aerially from the right side, the bonnet resembles a fish
	Drumstick	Bonnet is shaped like a chicken/turkey drumstick
	Flopsy	The bent right fluke tip looks like a floppy eared rabbit
4220	Treefrog	Seen from above, the callosities on his head look like a tree frog.
	Dieresis	3 series of 2 islands that look like dieresis (mark placed over a vowel: è)
	Frogger	Bonnet shaped like a frog, islands and pbh could be cars, and flank scar looks like leaping frog legs
	Frog	The bonnet shape looks like a cartoon frog seen from above.
	Prism	The two side-by-side islands look like they passed through the coaming and "broke" into the four PBHs
	Volley	Right flank scar = someone tossing a volley ball or tennis ball up in the air to serve.
	Volleyball	Right flank scar = someone tossing a volley ball up in the air to serve
	Tip-off	Right flank scar = 2 basketball players jumping for the ball at the start of the game.
	Frodo	The right flank scar resembles the two towers of Lord of the Rings, and Frodo is the main character of the trilogy.

	Odysseus	Odysseus for the Greek Hero whose journey home took years. #4220 arguably experienced an adventure during his 4 year sightings gap between 2014 and 2018, plus it relates back to his mother #3220/Cyclops (Odysseus encountered one in the epic poem).
	Pawprint	The 4 post-blow callosities look how a pawprint might in the snow or sand.
	Quad	For the 4 post blowhole callosities
	Treefrog	For the unique bonnet with attached islands that looks like a tree frog with big eyes
	Kermit	Bonnet looks like a frog
	Kermit	Bonnet (with tooth decay) looks like a smiling Kermit the frog, who is always juggling at least 4 things at a time on the Muppet Show (4 postblows).
	Seam Ripper	Scar on right flank resembles the double points of a seam ripper, a sewing tool
	Two-by-four	The two islands and four post blowholes
	Hand Puppet	The scar on right side looks like a hand puppet with the thumb as the lower jaw and the other four fingers as the upper jaw
4310	Rose	Seen from above, the callosities on her head look like a vase with three roses.
	Spade	coaming looks like a spade
	Snail	Bonnet looks like the head and stalk eyes of a snail protruding from shell
	Prickly Pear	Overall shape of bonnet looks like the cactus with oval shaped "branches"
	Opuntia	Overall shape of bonnet. Opuntia is genus of paddle shaped cactus (exp prickly pear)
	Lava Lamp	The double peninsula looks like the wax dripping inside a lava lamp.
	Inky	Her callosity looks like one of the ghosts from Pac-Man (one of which happens to be named Inky), and it also looks like it's stained with ink.
	Pineapple	For the unique shape of the bonnet that looks like a pineapple
	Bagheera	When viewed from the right, her bonnet and fused islands look like a cat lounging in a tree. Like the panther, Bagheera from the Jungle Book
	Scream	The bonnet resembles 'The 'Scream', a painting by Edvard Munch (distal end=top of the head)
	Santa	Post blowholes=eyebrows, blowholes=eyes, coaming=long,white beard
	Gourdie	Bonnet resembles a gourd
4539	Rogue	The white scar across the blowhole is reminiscent of the white streak in Rogue's hair from the Marvel Universe.
	Tissue	Scarring behind blowhole
	Sepia	Bonnet has the shape of a bobtail squid (scientific name: sepiolida)
	Bobtail	Bonnet has the shape of a bobtail squid
	Blaze	Scar looks like the blaze markings on a horse's face
	Cirrus	The scarring across his coaming and blowholes looks like wispy clouds often look flat, like the low-profile callosity topography.
	Tammy Faye	Right blowhole scars look like really bad/running mascara & eyeliner
	Tendrils	Right blowhole scar = plant tendrils or lightning tendrils
	Thor	Blow hole scar = lightning, coaming + peninsula = hammer

	Zeus	The scar over the right blowhole resembles a lightning bolt which is Zeus' signature weapon
	Hades	The scar over the blowhole looks like a two pronged pitchfork (bident), which is the Greek god of the underworld Hades' weapon. This would also be a family name since mother is Diablo.
	Scratch	For the scar across coaming and blowholes.
	Scrape	For the scar across coaming and blowholes.
	VIP	For the scarring on the blowholes that spells out V I P
	Genie	The scarring at the right blowhole resembles a genie emerging from a lamp to grant you wishes
	Bolt	Scar across blowhole looks like a lightning bolt.
	Jellyfish	Distal end of bonnet resembles the bell of a jellyfish; proximal end of bonnet looks like tentacles
	Gonzo	Islands (eyes) and callosity to proximal end of coaming (nose) resemble Gonzo the Muppet
	Killroy	Islands (eyes) and callosity to proximal end of coaming (nose) resemble killroy, the image of a person with a long nose peering over a wall
	Violin	Bonnet, islands, and coaming together resemble a violin
	Squidward	Bonnet looks like Squidward head from Spongeob Squarepants
	Petroglyph	The series of scars on the right head by the blowhole looks like cave painting/drawings
	Locomotive	The series of scars on the right head by the blowhole looks like puffs of steam from a classic locomotive engine
	Steam	The series of scars on the right head by the blowhole looks like puffs of steam from a classic locomotive engine
4546	Pear	pear shaped bonnet
	Trajectory	Three islands appear to be following a trajectory
	Decanter	Overall shape of bonnet with white scars along edges = facets of crystal decanter. Islands can be the booze being poured out.
	Jester	Jester for the callosity pattern that looks like one juggling, with the bonnet being the jester and the islands the balls.
	Spade	The main callosity looks like the suit of Spades in a deck of cards.
	Pickle	For the left lip scar that looks like a little pickle
	Dandelion	Islands and pens look like dandelion puffs.
	Kokopelli	The 3 islands resemble the projections of the fertility deity, usually depicted as a humpbacked flute player
4633	Megamind	Her bulgy, peaky bonnet looks like a brain.
	Quarterback	The bonnet and other callosities look like football player equipment
	Katahdin	The peaky bonnet stands tall and apart like Mt Katahdin in Maine
	Iota	i-shaped scar on right lip
	Exclaim	! shaped scar on right lip
	Skydancer	The little known formal name for the inflatable air puppet used for advertising (think car dealerships) is skydancer, which the coaming of #4633 looks like.

	Gonzo	Named for the muppet with the big nose, like this whale's very prominent bonnet, especially when seen from a boat.
	Kilimanjaro	For the peaky bonnet
	Denali	For the peaky bonnet
	Mytilus	For her peaky bonnet. Mytilus is the name of one of the seamounts in the NE Canyons and Seamounts National Monument. Also the genus that includes mussels, a bivalve (symmetrical/fused islands)
4980	Hieroglyph	Back marks look like hieroglyphs
	Albatross	The smaller scar on this whale's back looks like a seabird about to dive.
	Maleficent	Right back scar looks like silhouette of Maleficent w/ dark horns and high collar of her cloak. White dots = her birds and the larger white scar above = a spell cast
	Freefall	Right back scar = a person falling from a cliff
	Skydive	Right back scar = person jumping from an airplane
	Moonwalk	Right back scar = person jumping on the moon
	Astronaut	Right back scar = person jumping on the moon
	Coral	Body scars look like pieces of coral.
	Jigsaw	The back lesions look like pieces from a jigsaw puzzle.
	Coral	Back scars resemble different corals
	Shadow Puppet	For the white scar/lesion on the back that looks like a shadow puppet of a dog
	Albatross	Scar looks like an albatross coming in to land (wings spread, feet dangling) on an island
	Splatter	Scars look like paint splatter.
5001	Sequoia	(Giant redwood) Slender continuous callosity
	Mink	white chin
	Concordia	Roman goddess of harmony, mother is Harmonia (Greek goddess of harmony)
	Shillelagh	Right back scar = Irish wooden walking stick or club w/ large knob at the top
	Giraffe	Right back scar = Head & neck of a giraffe
	Hobby Horse	Right back scar = hobby horse toy
	Crook	The scar on the right flank looks exactly like a shepherd's crook (cane).
	Agave	Continues the maternal family line (Agave is an offspring of Harmonia). Also the back scars look like the leaves of an agave plant.
	Tally	Scars on body are like tally marks.
	Jelly	The callosity looks like a jellyfish.
	Seal	Seal the singer also has scars on his face
	White Peaks	Propeller scars resemble White Peaks
	Sceptre	For the callosity pattern, the uniformity of the peninsulas resemble a sceptre that would be carried for ceremonial purposes
	Agave	Agave is the daughter of Harmonia in Greek Mythology, also scars on back look like the sharp leaves of the Agave plant
	Wonka	Back scar looks like a cane and Willy Wonka famously used a cane. He also makes candy (canes).
5046	Ref	Short for 'referee' for the striped banding on callosity
	Cumulus	Large lips and callosity look like puffy clouds

	Everest	Named for the highest mountain since the lip callosities are large and resemble mountaintops.
	Fluffernutter	The "fluffy" callosity between two large lips is like a fluff sandwich.
	Manatee	The aerial view of the callosity looks like a manatee.
	Pin	For the bulky continuous callosity that looks like a pin from ten-pin bowling
	Burnside	Civil war general and originator of the "side burns", for this whales' big, long lips
	Extra	The callosity and lips are just so extra.
	Lips	I look at this whale and see LIPS.
5120	Highbeam	Bright headlights
	Tidal	For the constantly shifting callosity from continuous to islands.
	Hippopotamus	For the bonnet that resembles a hippo
	Crustacea	Wide set islands barely connected to the coaming look like eyes on stalks, which is common in crabs, shrimp and other crustaceans. A nod to her mother #3720 "Squilla" and grandmother #1620 "Mantis"
	Puff	Headlights looks like a dragon's nostrils and the callosity shapeshifts (magic), hence Puff the Magic Dragon.
