Introduction

After twenty years of publication, *Right Whale News* is an archive and history of right whale recovery, research, advocacy, and politics. This is particularly true as the history experiences a generational progression—from the initial era of Watkins, Winn, Caldwell, and Prescott through the current and into the future generations. Successes, failures, spending plans, editorials, meeting summaries, book reviews, and events are recorded here as nowhere else.

The first issue, published in August 1994, described the purpose of *Right Whale News* as helping to increase the efficiency and effectiveness of recovery for the right whale. The newsletter, while quietly advocating for the recovery of the species, provides unbiased news about the broad spectrum of activities taking place (or sometimes not taking place) to help right whales recover.

In 2009, the newsletter transitioned from editor, Hans Neuhauser and host organization the Georgia Environmental Policy Institute, to editor, James Hain and host organization Associated Scientists at Woods Hole. With the cooperation of the North Atlantic Right Whale Consortium, current as well as back issues are posted on the Consortium's website (www.narwc.org).

This index covers the first 10 years of the newsletter, November 2013 back to February 2004. Two notes: 1) due to an editorial error, there is no volume 16, the numbering passes directly from volume 15, number 4 (November 2008) to volume 17 number 1 (February 2009), and 2) in the transition from mailed to electronic publication, the February 2006 issue was not published but instead was merged with the May 2006 issue.

Index organization and contents

There are three sections to the index: 1) this introduction to organization and contents, 2) a Subject Index, and 3) the Author Index.

II. Subject Index organization

For the Subject Index, the following 15 categories are used. A short-form category title is used within the index proper.

Book review

Education and training

General

Government

Human impacts

Litigation and courts

Management

Money: Budget, spending, resources

Monitoring

OpEd: Opinion and editorial

People

Regulation and rules

Reports, season and area

Science

Whales, catalogued individuals

In the Subject Index, a given article or topic may be listed under more than one category, *i.e.* cross referenced, to aid in searching of topics.

Acronynms

ALWTRP=Atlantic Large Whale Take Reduction Plan

AMAPPS=Atlantic Marine Assessment Program for Protected Species

ASRG=Atlantic Scientific Review Group

BOEM=Bureau of Ocean Energy Management

CETAP=Cetacean and Turtle Assessment Program

ESA=Endangered Species Act of 1973

DEIS=draft environmental impact statement

EIS=environmental impact statement

EWS=Early Warning System

GAAQ=Georgia Aquarium

GAO=Government Accounting Office

MMC=Marine Mammal Commission

MMPA=Marine Mammal Protection Act of 1972

MOU=Memorandum of understanding

NARWC=North Atlantic Right Whale Consortium

NEFSC=Northeast Fisheries Science Center

NEPA=National Environmental Policy Act of 1969

NOAA=National Oceanic and Atmospheric Administration

NMFS=National Marine Fisheries Service

OMB=Office of Management and Budget

PSA=public service announcement

RW=right whale SEIT=southeast U.S. implementation team SERO=Southeast Regional Office, NMFS SEUS=Southeastern United States

>> in addition to the acronyms above, Some shorthand/abbreviations are used to fit the space within the index columns: *e.g.* RWhale, rather than spell out "right whale."

III. Author Index organization

In the Author Index, only the first author will be listed.

Where attribution for an article is not given, it was prepared by the editor(s).
